pluralsight
hardcore developer training

Agenda

- **Deeper into AngularJS**

  - Using Routing and Views

  - Two-way Data Binding

  - AngularJS Validation

  - Pushing Data to the API

  - AngularJS Services

  - Minification and AngularJS

Summary

- **Deeper into AngularJS**

    ☐ Routing and Views can be used to create deeply interactive pages

    ☐ HTML Forms and AngularJS Two-way Data Binding simplifies data collection

    ☐ Validating data in AngularJS is great with supported validation attributes

    ☐ Extend the Dependency Injection with your own AngularJS Services

    ☐ You can build AngularJS services/controllers to work well with minification
